### Saving For Your Child's Future

It's never too early to start saving for your child's education after high school. Putting aside even a few dollars a month can really add up. A Registered Education Savings Plan (RESP) is a special savings account you can put money into.

The money you deposit and the interest you earn will help your savings grow. You can then use that money to help your child pay for an apprenticeship or a program at a CEGEP, trade school, college or university.

Visit your local financial institution to open an RESP and to get assistance applying for the Canada Learning Bond and Canada Education Savings Grant.
